LEGISLATIVE POETRY.

This is the way a Noble amuses
himself during his few spare mo-
ments in the House:—

TO W. A. KINNEY.
We miss your gentle face,
And that ere boyish grace;
When you used to address the Chair,
It would make us fairly stare;
With your uplifted finger,
You often had to linger,
Before your thoughts would flow
The way you wanted them to go.
But never mind, dear Kinney,
You were better than a nursery.

REWARDED.

The "Illustrated London News" of
August 4th has the following:
"The Board of Trade have awarded
a piece of plate to Capt. H. M. Hay-
ward, master, a gold shipwreck
medal to Mr. Frank William Hart,
first officer; and a silver shipwreck
medal and a sum of £2 each to
Johan Bapark, Harry Ewing, Wil-
liam Allen and Thomas Driscoll,
seamen, of the American steamship
Mariposa, in recognition of their
services in rescuing the crew and
passengers of the bark Henry
James, of Glasgow, which was
wrecked off Palmyra island, on
April 16th last."

THE COFFEE BILL VETOED.

The King sent a message to the
House this afternoon vetoing the
Coffee Bill. The message is to be
considered next Friday.

Following are His Majesty's rea-
sons for the veto:

1st. It is not right nor just to the
taxpayers of the kingdom to grant a
subvention of so large a sum for the
furthering of a private enterprise.

2nd. No objection exists to giving
subventions in aid of private enter-
prises, but this should be done by
granting bounties for what have
been produced.

3rd. Such bounties should be
given to all who embark their pri-
vate capital in a new enterprise and
achieve success, not to one person
exclusively.

A LETTER BY THE ARABIC.

Lieutenant Cressup, writing by
the S. S. Arabic, which vessel ar-
rived here yesterday, sends his
aloha to all his acquaintances. His
little boy has thrown aside his petti-
coats and has donned knickerbock-
ers. The little fellow's freckles,
which he had gathered at Waikiki,
had nearly all disappeared. The
Mohican made a very long passage
up to San Francisco, because she
had consumed all of her coal when
in the trades and had none left
when she reached the calm belt,
about halfway between this port
and the Coast.

Mr. Cressup says that when pass-
ing Waikiki he saw the ladies wav-
ing their handkerchiefs and he re-
turned the salute with a red flag.
They went as far as 42 1/2 degs. North
latitude. The Mohican is receiving
a general overhauling, and will soon
be ready for sea again.

ANSWERS TO QUESTIONS.

Minister Thurston presented the
following answers to questions by
Rep. Nakaleka:

1. The appropriation for the en-
couragement of the cultivation of
cinchona has been disposed of as
follows:

Cinchona seed, 168.70; Mr. For-
syth's services to Feb. 13, 1888,
\$412; \$580.70. The balance of
\$1429.30 remains in the Treasury.

2. That Mr. Forsyth has been in
the employ of the Government from
August 13, 1887, to July 31, 1888.

3. The salary which was agreed
to be paid Mr. Forsyth was \$200 a
month, he paying his own traveling
and other expenses.

4. The Government has not given
any I. O. U.'s for Mr. Forsyth's
salary. Through inadvertence he
did not draw the salary due him be-
tween the 13th of February and the
end of March. Since the lapse of
the period, and consequent lapse of
the unexpended balance of appro-
priation, there has, of course, been
no payment to Mr. Forsyth. He
has rendered several bills to the
Government on the basis above
stated up to and including the 31st
of July, which I have approved,
and which I have told him would be
paid upon the passage of the appro-
priation bill, out of any available
appropriation.

5. The propositions made by Mr.
Forsyth and the proposed action of
the Government was stated at the
time the appropriation was asked
for in 1887. It was in brief as fol-
lows: Mr. Forsyth was on the
ground with unquestioned evidence
that he was what he represented
himself to be, viz.: a practical cof-
fee and cinchona planter and culti-
vator, who had been employed as
an expert in other countries in con-
nection with the introduction of
such industries. His proposition to
the Government and his proposition
was accepted, that he should make a
detailed examination of the different
